CARING FOR YOUR BLACK HILLS GOLD

The frosty finish on Black Hills Gold may pick up dirt and grime. Thorough scrubbing with a soft brush and mild soap followed by a warm water rinse and drying with a soft towel should keep the jewelry bright and new-looking.

Pearls and opals should be cleaned using warm water and a soft cloth. Avoid using any cleaning agents or excessive heat.

Avoid using any detergent on bangles, lockets and hoops. To clean use minimal warm water and a soft brush. Do not immerse.

Some cosmetics and hand lotions contain substances that may darken the surface of the leaves. Frequent cleaning should prevent darkening.

By its inherent nature, silver will tarnish over time and requires cleaning to restore it to its natural beauty.

Landstrom's jewelry is NOT robotically manufactured. Each piece is handcrafted with techniques passed down by our predecessors over a century ago. That's why each piece is unique. Therefore, colors and cuts may vary slightly from the products shown.

Products are shown as close to actual size and color as photography and printing allows, unless otherwise noted. Landstrom's strives to improve the overall quality of our products and reserves the right to modify designs without prior notice.

Landstrom's reserves the right to correct any errors found in this catalog and is not responsible for printing or typographical errors.
